

DISCLOSURE REGARDING PROGRAM PREPARATION FOR PROFESSIONAL LICENSURE OR CERTIFICATION

COLLEGE

College of Liberal Arts

PROGRAM

Bachelor of Science in Human Development and Family Science

The University of Louisiana at Lafayette is committed to providing clear and accurate information to current and prospective students to help inform career planning. The UL Lafayette program identified above prepares students to practice in a field with professional licensure or certification available. However, specific licensure and certification requirements can and often do vary by state. Requirements typically include earning a degree or other educational credential in the field from an institution and program that meet certain eligibility requirements in that state (e.g., curricular requirements, accredited status, approval by the state licensing board); passing a state or national exam; working in the field for a minimum period of time; and/or completing a certain number of clinical hours. If your career plans include pursuing professional licensure or certification in your chosen field, it is important to become educated on the credentialing requirements of the state in which you hope to practice.

UL Lafayette Program Preparation in the State of Louisiana

The UL Lafayette B.S. in Human Development and Family Sciences is an NCFR-approved program. Students who complete the required coursework and internship may apply for the Certified Family Life Educator (CFLE) credential through the CFLE-Approved Program Application process without taking the CFLE examination.

We advise you to review the National Council on Family Relations (NCFR) requirements at <https://www.ncfr.org/>.

UL Lafayette Program Preparation in Other U.S. States

The Certified Family Life Educator (CFLE) credential, awarded by the National Council on Family Relations (NCFR), is a nationally recognized professional certification and is not specific to any individual state. Therefore, graduates of the UL Lafayette B.S. in Human Development and Family Science program who meet NCFR requirements may apply for CFLE certification regardless of the state in which they reside or work.

UL Lafayette Program Preparation Outside the United States

This disclosure does not address program eligibility in countries outside the United States. We are unable to determine whether or not the above-named degree program meets the educational requirements for graduates to be eligible to apply for licensure or certification outside the United States. Again, it is important to become educated on the credentialing requirements in the location in which you hope to practice.
